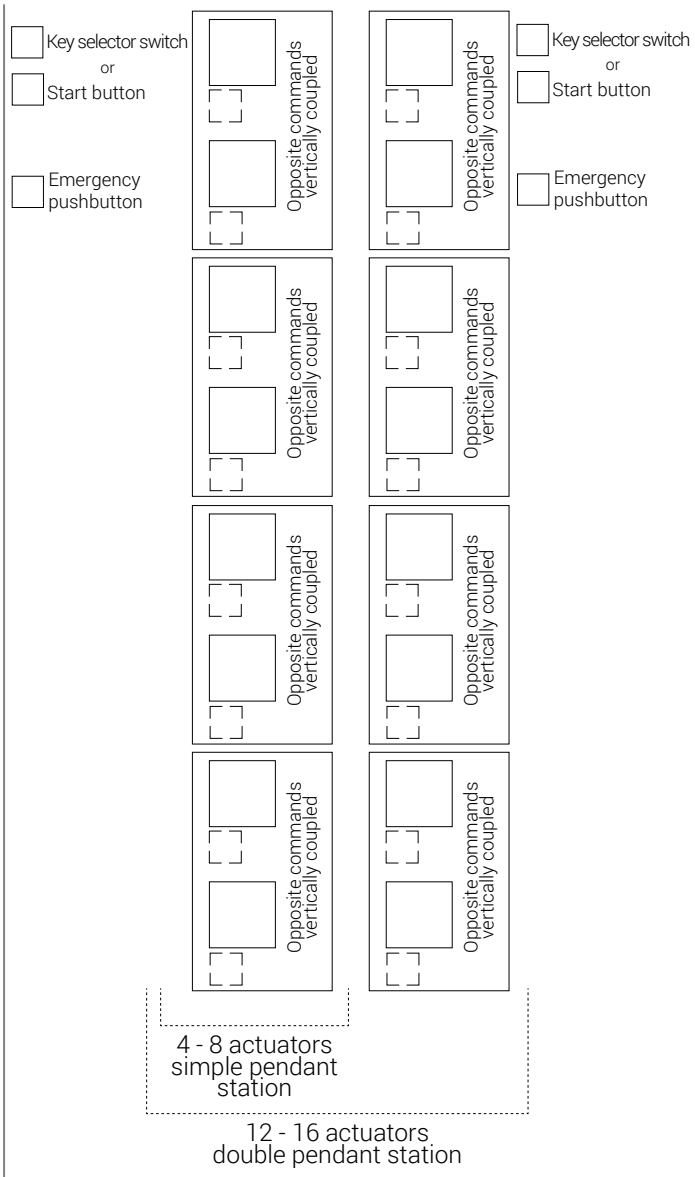
☐ Connecting bridges

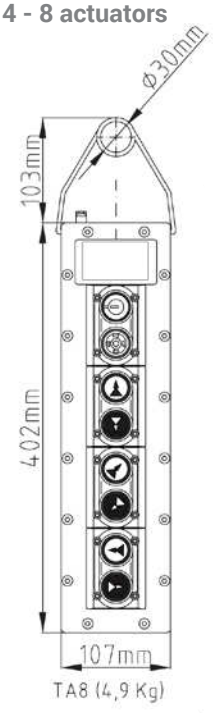
Instructions

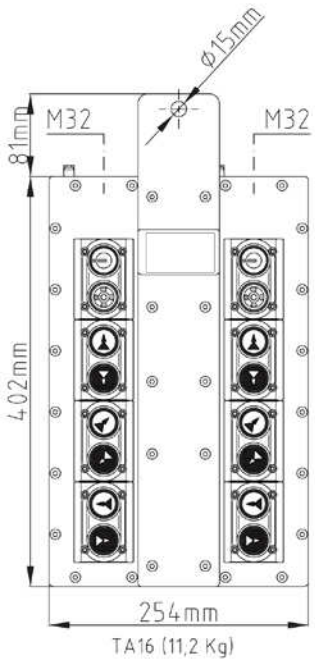
- Tick the box to accept the protection type provided.
- Tick the box corresponding to the pendant control station model required: 4 - 8 actuators (simple pendant station), 12 - 16 actuators (double pendant station).
- Write the number corresponding to the control element required (broken line box). When buttons are required mark the direction of the arrow into the corresponding box.
  If the key selector switch or the green start button and the emergency pushbutton are required, tick the box corresponding to the right position.
  When the pendant control station is the double row model, complete both the columns.
- **Attention: opposite commands (i.e: up – down) are vertically coupled on columns.**
- Tick the box corresponding to the optional required.

Attention: One or two speeds pushbuttons provided.



Simple pendant station 4 - 8 actuators





Double pendant station 12 - 16 actuators
